RESPONSE TO OFFICE ACTION

Responsive to the Office Action, dated December 4, 2002, please amend the
application as follows.

IN THE CLAIMS

Please amend the claims to read as follows:

1. (Amended) A full duplex audio headset, comprising:

C / a first ear piece including a rigid housing for coupling to a headband, the ear piece
also including an insertion portion for inserting inside a first ear canal and containing a
microphone configured to pickup voice signals of a headset operator output from a first ear
canal and convert the voice signals into electrical transmit signals and output the electrical
transmit signals from the headset as an electrical representation of the voice signals of the
headset operator; and

a second ear piece including a rigid housing for coupling to the headband, the second
ear piece also including an insertion portion for inserting inside a second ear canal and
containing an ear phone for converting electrical receive signals received from an external
device coupled to the audio headset into audio output sounds and outputting the audio output
sounds into the second ear canal of the headset operator so that the headset operator can hear
the audio output sounds.
